EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on 3/30/01, assigned serial 09/820533 and title "Automotive Control Apparatus And Method".

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After carefully reviewing the application in light of the amended claims and the additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

Although the references found disclose several claimed limitations, none of the references discloses a method and apparatus of controlling a vehicle having a first running mode wherein a driving shaft torque, and an engine torque of the vehicle is controlled according to a first target value determined from an accelerator pedal position and a second running mode wherein the driving shaft torque, and the engine torque of the vehicle is controlled according to a second target value determined from at least one of a target vehicle speed and a headway distance of vehicle, comprising: when first running mode is changed to second running mode, determining a changing over time period from first running mode to second running mode based on a difference between first target value calculated in first running mode and second target value calculated in second running mode; and setting a third target value varies from first target value to second target value in changing over time period (claims 20,22,26, and 28). Also, none

Art Unit: 3661

of the references found, controlling a driving force according to third target value until a difference between the second and third target value becomes a predetermined value (claim 31).

Claims 20-23,26-27, and 31-38, are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dalena Tran whose telephone number is 703-308-8223. The examiner can normally be reached on M-F (7:30 AM-5:30 PM), off every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 703-305-8233. The fax phone numbers for the organization where this application or proceeding is assigned are 703-305-7687 for regular communications and 703-305-7687 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
